

# SKILLS AGILITY

## WHY IT SHOULD BE A PRIORITY FOR YOUR ORGANISATION

As technology and business needs evolve, skills agility: adapting, learning, and growing is crucial for success.

Only **44%** of employees feel they have the right skills for their job, KPMG reports.

By 2027, the World Economic Forum predicts 44% of workers' core skills will be disrupted.

### How

Assess skills and gaps

Foster a learning culture

Allocate time for development

Personalise learning experiences

Create spaces for knowledge sharing

### Benefits

Boosts motivation

Increases innovation

Increases retention

Enhances competitiveness

Enables career development
